

## Deep Presence: Deep Service

If you changed nothing but your ability to be more present with your clients, what's possible—for you, your clients, and for your practice?

### CORE COACHING COMPETENCIES

We are very excited to explore coaching presence in the PRESENCE of equine partners. Our experience of allowing the wisdom of horses to inform us is that discovery, insight, and growth occur deeper, broader, and faster. Partnering with them, we go beyond where we can go alone.

### WHY HORSES

*"I hear and I forget. I see and I remember. I do and I understand." ~Unknown*

Horses tell you what other humans may not be willing or able to say. Because they don't make judgments, we inherently trust them and are able to hear feedback you may not be able to hear from another human. They also add fun and humor to your exploration.

*What do you sense lies just beyond your awareness that would exponentially increase your service to your clients?*
